Fladbury
Church of England Primary School and Preschool

Friday 23rd January 2026

Construction work begins at Fladbury Church of England Primary School and Preschool

Dear Parents and Carers

We are delighted to announce that the long-awaited building conversion work is officially scheduled to begin on Monday 2nd February, with ground works beginning on Monday 16th February coinciding with our half term.

What to expect:

- **Duration:** The works are expected to last until the end of the academic year.
- **Safety:** As the build is at the back of the school, the construction area on the playground will be fully cordoned off, risk assessments in place and fire evacuation plans considered.
- **Access Changes:** We do not anticipate any change to current access arrangements so collection and drop off points and times will remain as they are now.

We understand that construction can bring inconvenience and we want to reassure everyone that minimising disruption is a top priority. Our contractors will be working to keep noise, traffic and access issues to an absolute minimum throughout the project and have also confirmed that there will be no deliveries to the site between 08:15 and 09:15, or between 14:45 and 15:45, thus enabling the children to arrive and depart easily and safely. Where any unavoidable disruption is expected, we will communicate clearly and in good time so our families, local residents and our neighbours can plan accordingly.

Your patience and understanding during this period are genuinely appreciated. We are committed to keeping the community informed as the work progresses and will share photos of our progress on Dojo so you can see the transformation as it happens!

We appreciate your patience and support as we finally bring these improvements to life.

If you have any questions or concerns, please feel free to get in touch.

Thank you for your continued support.
