💧 “First-flush” Water Jar

When you turn on the tap for hot water, that first cold stream you let run is perfectly clean, but it often goes straight down the drain.

Keep a dedicated jar, jug, or watering can by the sink or shower. Catch that first flush and use it for:

- Watering houseplants or your garden
- Soaking dirty dishes before washing
- Filling a kettle for tea or cooking

It’s shockingly easy to save gallons every week without changing anything else about your routine.

Join Us for Some
Halloween Fun!

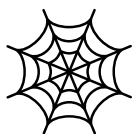

We'd love you to come along and enjoy an afternoon of Halloween-themed games and activities at the Village Hall.

Children are very welcome to change into Halloween costumes once at the event. Please ensure they do not come to school in fancy dress.

Please note that this event will replace the Halloween Disco this year, as we have been unable to secure a suitable venue while the school hall remains out of action.

We look forward to seeing you there!
